Education

Madan Mohan Malaviya University of Technology, Gorakhpur 2025-2027
Master of Technology(Information Technology) **CGPA: 7.00**

Vellore Institute of Technology, Bhopal 2021-2025
Bachelor of Technology (Computer Science and Engineering) **CGPA: 7.85**

Professional Experience

VLSI Design Methodologies (Maven Silicon, Bangalore):

- Completed a 12-week intensive program, gaining hands-on experience in VLSI design, simulation, and verification
- Enhanced circuit efficiency by 20% through collaboration on a project

Unreal Engine Training (Monolith Labs, Chennai):

- Undertook a 1-week training course, mastering Unreal Engine for game development
- Created 3 interactive demos, significantly boosting my understanding of game mechanics and 3D rendering

Technical Skills and Interests

Languages: *C++, C# and SQL*
Developer Tools: Visual Studio, Git, Blender, Unity, Unreal Engine
Cloud/Databases: MySQL, Firebase (Basic)
Soft Skills: Team Collaboration, Problem Solving, Creativity, Quick Learning, Time Management
Coursework: Object-Oriented Programming, Database Management Systems , Cyber Security
Areas of Interest: Game Development, Gameplay Programming, 3D Design, AI in Games, Cyber Security, Blockchain

Live Projects

Bounce Peak
Developed an endless arcade platformer inspired by Doodle Jump using Unity.

- Tools & technologies used: ***Unity,C#,Unity Input System,Visual Studio 2022..***
- Implemented player movement, platform spawning, scoring, and increasing difficulty mechanics.
- Designed smooth gameplay with optimized controls and reusable object systems for better performance.
- Focused on creating an engaging casual gaming experience for mobile players.

Pixel Pile
Built a puzzle game inspired by Tetris using Unity.

- Tools & technologies used: ***Unity,C#,Visual Studio, Git & GitHub.***
- mplemented block spawning, rotation, line clearing, scoring, and game-over systems.
- Designed responsive controls and progressively challenging gameplay mechanics.
- Focused on clean UI and smooth gameplay experience for casual players.

3rd Person Shooter game Link
Developed an action-packed 3rd Person Shooter game inspired by PUBG using Unreal Engine.

- Tools & technologies used: ***Unreal Engine, Blender, Mixamo and C++.***
- Designed core gameplay features including shooting, movement, and combat systems.
- Integrated character models, animations, and game assets using Blender and Mixamo.
- Enhanced the overall gameplay experience with immersive environments and smooth controls.

Project SLASH: Melee Combat Game Link
Built an action-focused hack-and-slash game inspired by Sekiro and action RPG combat.

- Tools & technologies used: ***Unreal Engine, Blender, Mixamo, MetaHuman Creator and C++.***
- Implemented melee combat mechanics, character movement, and enemy interactions.
- Focused on creating smooth combat gameplay and immersive player experience.
